

Community Resources and Education Working Group Report December 2022 Update - to be received for information:

Our Pet Wellness Day in Oct was a complete success with close to 50 animals coming through the door, had their shots, nails clipped and left with a bag of food, treats, toys and a coat. Owners left with a bag of goodies as well. Plans are for another Wellness Day in 2023 hopefully bigger....we will be applying for a Pet Smart Grant in the New Year to cover some of the expenses...At this time the group has not decided on another focus project.but will continue to plan for another Wellness Day.
