

Hi Branden,

Thank you so much for reaching out.

My name is Mary Anne Martin and I am the treasurer at DIG. We very much appreciate the ongoing support we receive from OEAC and the City of Oshawa.

I'm attaching the invoice for 2023 here and some information about DIG below.

In the 13 years that DIG (Durham Integrated Growers for a Sustainable Community) has been operating in Durham Region, it has been our pleasure to support local community food production and food security by:

- Providing technical and developmental garden assistance
- Sharing information, knowledge, and skills
- Assistance with funding opportunities
- Fostering partnerships
- Bridging between our members and the health department and municipalities
- Advocating for urban agriculture
- Promoting and educating about sustainable production and access to local healthy foods

The activities of our volunteer board rely in large part on the membership fees we receive from individuals, organizations, and corporations, including our local municipalities. 25% of all membership fees that we receive is directed into our You Grow Durham Fund to be distributed directly to new gardens trying to become established. Overall, we are proud of the community we have created with the support of our members across Durham Region.

Kind regards, Mary Anne Martin Treasurer, DIG

202305

## INVOICE

City of Oshawa  
50 Centre Street South  
Oshawa, ON  
L1H 3Z7

March 29, 2023
