Subject: Ontario Tech University Climate Symposium

Dear Branden Morris,

My name is Charlie Birnie and I am a work study student at the Office of Campus Infrastructure and Sustainability at Ontario Tech University.

This March, we are celebrating Sustainability Month on campus through a host of events, workshops, and virtual presentations to get students, staff and the community engaged in sustainability and climate action.

Our main event of the month is the Climate Symposium where students can connect with local environmental organizations to learn about their initiatives and potential career paths in sustainability.

The Oshawa Environmental Advisory Committee does important work for our environment through community outreach and education. We would like to invite you to display a booth at the Climate Symposium on March 27th from 11 AM - 2 PM. Tentative: Lunch will be provided.

Kindly respond to this email by Wednesday January 31st to let us know if you would like to attend.

Thank you for your time and consideration,

Charlie Birnie
Asset & Sustainability Assistant
