Hello Clerks Oshawa,

I have been in contact with Harrison @ Heritage Oshawa regarding information concerning the house I have been owner of for these last two years. Harrison shared with me that no formal report of the building has been done from a heritage point of view and that if I would like to request that one be conducted I should reach out to this contact: something about enough money left in the budget for one more property. I would appreciate your consideration to look into our homes history.

The address is 37 Adelaide Avenue West.

I have read and understand the implications for the site being designated historically significant and am fine with that. Is this all that needs to be done to trigger a report. Or is there some more paper work that needs to be signed?

Thank you for your assistance!

Kindly, Cameron
