

OACAC-25-02

Community Resources Report on Wellness Days:

1. Wellness dates:

November 24 - 20 cats, 14 dogs

November 30 - 27 cats, 22 dogs

Total seen by vet teams: 47 cats, 36 dogs

* Reason for increased #'s for second weekend is we discovered more animals could be seen in the time given*

2. Time slots: we allotted 15 min time slots per animal/vet. This could be reduced back to 10-12 min time slots

3. Registration method:

MJ did phone and Kimberly email registration

We used both phone and email but turned out to be problematic. Need to just use email

4. Flow of the day was good.

5. Set up: individual vet team rooms were awesome. Grooming station at back was great and give away tables all worked out nice.

6. Budget: \$1200 allocated

\$200 - food for both days

\$600 - token thank gifts

\$400- medical supplies

A # of supplies were donated by vet teams
(WE NEED TO INCREASE BUDGET)

7. Location for event days was great. Thank you to the OAS staff for welcoming us into their workspace.

8. Transportation: do we need to have a designated volunteer and have it advertised on the wellness day flyers?

9. Pet gift bags: A big success with the pet parents and of course the pets. A huge thank you to Mel, Rescue Chow and Mars, and the wonderful team of volunteers who made it all happen

10. Grooming station: Thank you to Donna and her husband for offering an outstanding, much needed service over the course of both weekends

11. Thank you to the members of the SNI team for being at the event to share their info on spay/neuter initiatives

12. Dates for next year?

13. Other items?

Recommendation: That the Community Resources Working Group Report on Pet Wellness Days be received for information.
