Land Acknowledgement

The City of Oshawa is situated on lands within the traditional and treaty territory of the Michi Saagiig and Chippewa Anishinaabeg and the signatories of the Williams Treaties, which include the Mississaugas of Scugog Island, Curve Lake, Hiawatha and Alderville First Nations, and the Chippewas of Georgina Island, Rama and Beausoleil First Nations.

We are grateful for the Anishinaabeg who have cared for the land and waters within this territory since time immemorial.

We recognize that Oshawa is steeped in rich Indigenous history and is now present day home to many First Nations, Inuit and Métis people. We express gratitude for this diverse group of Indigenous Peoples who continue to care for the land and shape and strengthen our community.

As a municipality, we are committed to understanding the truth of our shared history, acknowledging our role in addressing the negative impacts that colonization continues to have on Indigenous Peoples, developing reciprocal relationships, and taking meaningful action toward reconciliation.

SF-25-30 - Maximum Temperature Regulations and Provincial Legislation (All Wards)

Consent Motion:

Whereas on June 10, 2024, Safety and Facilities Services Committee (“Committee”) was presented with correspondence Item SF-24-32 from Laura Barton requesting that the City of Oshawa (“City”) implement a by-law and standards to regulate maximum allowable temperatures in residential rental dwellings; and,

Whereas on June 24, 2024, City Council (“Council”) referred Item SF-24-32 and additional correspondence (Item CNCL-24-97) to staff with direction to explore, examine and report back to the Committee with a detailed review of the City’s ability to regulate maximum temperatures; and,

Whereas staff have undertaken an investigation into maximum allowable temperature regulations which includes the review of enabling legislation, existing City standards, benchmarking of comparator municipalities as well as tracking developments at the provincial level to address maximum allowable temperatures in residential rental dwellings; and,

Whereas generally, at a minimum, municipalities regulate the maintenance of buildings and respective service systems (heating and cooling) through property standards by-laws with some municipalities (including the City) taking a further regulatory step establishing adequate or minimum heat by-laws to regulate the temperatures during the colder months, in parallel with vital services standards found in Residential Tenancies Act, 2006, S.O. 2006, c. 17 (“Residential Tenancies Act”); and,

Whereas in addition to the aforementioned regulatory scope of adequate or minimum heat by-laws, some municipalities, including the City of Toronto, City of Mississauga and the Town of Ajax, have implemented regulations for maximum allowable temperatures in warmer months for residential rental dwellings with existing air conditioning systems; and,

Whereas Bill 97, Helping Homebuyers, Protecting Tenants Act (“Bill 97”) was passed by the Legislative Assembly of Ontario (“Provincial Parliament”) and received Royal Assent on June 8, 2023 (Helping Homebuyers, Protecting Tenants Act, 2023, S.O. 2023, c. 10), which enabled amendments to the Residential Tenancies Act to permit tenants to install and use a window or portable air conditioner in a rental unit where the landlord does not supply air conditioning; and,

Whereas Residential Tenancies Act amendments enabled by Helping Homebuyers, Protecting Tenants Act, 2023, S.O. 2023, c. 10 have been drafted and embedded into said Act as not-yet-in-force provision 36.1, requiring proclamation by the Lieutenant Governor of Ontario (“Lieutenant Governor”) to be put into force and law; and,

Whereas on November 27, 2024, Bill 230, Housing Equity and Rental Transparency Act, 2024 (“Bill 230”) was introduced for First Reading and heard by Provincial Parliament, which among several legislative updates, proposed amendments to the Residential Tenancies Act requiring landlords to maintain an indoor temperature of twenty-six (26) degrees Celsius or less from May 15 to September 15 in the common areas of residential rental complexes; and,

Whereas the Residential Tenancies Act amendments contemplated in Bill 230 would establish provincial regulatory standards for maximum allowable temperatures in residential rental complexes, requiring local municipalities to appoint inspectors for the purposes of compliance and complaint response with the authority to compel landlords to complete remedial work to comply with established maximum allowable temperature standards; and,

Whereas while Bill 230 was ordered for Second Reading and debate, the dissolution of Provincial Parliament on January 29, 2025 and subsequent election on February 27, 2025 began a new sitting of Provincial Parliament, with bills not receiving Royal Assent in the previous sitting not being scheduled for further proceedings, unless reintroduced by Provincial Parliament; and,

Whereas should the Lieutenant Governor proclaim Residential Tenancies Act not-in-force provisions 36.1 into force and law, and the Provincial Government address previously proposed provincial regulatory standards contemplated in Bill 230, there would be a clearer legislative environment to advise and report on potential municipal regulatory frameworks pertaining to maximum allowable temperatures in residential rental dwellings;

Therefore, be it resolved that based on Item SF-25-30 dated May 7, 2025 concerning maximum temperature regulations and provincial legislation:

1. That the Lieutenant Governor be requested to proclaim Residential Tenancies Act, 2006, S.O. 2006, c. 17 not-in-force provisions 36.1 into force and law, pursuant to Helping Homebuyers, Protecting Tenants Act, 2023, S.O. 2023, c. 10; and,
2. That the Provincial Government be requested to address the previously proposed provincial regulatory standards contemplated in Bill 230 Housing Equity and Rental Transparency Act, 2024, specifically the proposed amendments to Residential Tenancies Act, 2006, S.O. 2006, c. 17 to regulate the indoor air temperature of common areas in residential complexes; and,
3. That staff be directed to track the ongoing developments with provincial legislation related to maximum allowable temperatures in residential rental dwellings and report back to the Safety and Facilities Services Committee in Q1 2026 or sooner, should the Provincial Government provide clearer legislative direction for the cooling of air in residential rental settings.

CNCL-25-29 - Graffiti and Vandalism Remediation Fund Program Eligibility Recommendation (All Wards)

Consent Motion:

Whereas, the Graffiti and Vandalism Remediation Fund through [ED-24-41](#) was recommended by the Economic and Development Services Committee on April 8, 2024, and adopted by City Council on April 29, 2024; and,

Whereas, the Graffiti and Vandalism Remediation Fund was formally launched publicly on May 2, 2024, accepting applications retroactive to January 1, 2024, and reviewed on a first come, first serve basis until the fund is fully exhausted; and,

Whereas, the Graffiti and Vandalism Remediation Fund has received (13) applications as of April 2025 and committed \$38,189.18 of the one-time fund of \$100,000; and,

Whereas, [ED-24-41](#) Attachment 1, Types of Rebates outlines “The grant program offers two (2) types of rebates. A property owner or business owner can apply to one or both programs. Each municipal address is only able to apply to each grant one time for the life of the grant program”; and,

Whereas, Oshawa Economic Development staff have been advised by Municipal Law Enforcement staff, business owners, and property owners that several municipal addresses have been subject to multiple graffiti or vandalism incidents during the eligible time period; and,

Whereas, the Oshawa Strategic Plan 2024-2027: Innovate. Belong. Care. Lead. identifies the mission of “Committed to delivering exceptional services, spaces, and experiences”, including Section 5 within the Lead priority area, “Embrace innovation and advance continuous improvement initiatives and actions”; and,

Whereas, exploring alterations to the program to allow multiple applications per municipal address is a proactive approach to ensure a high level of service and support is extended to impacted properties; and,

Whereas, criteria will be added to the program for municipal addresses submitting additional applications which will include but not be limited to: confirmation of the submission of a police report of the incident; mandatory meeting with City Security representatives to review the subject property through a lens of Crime Prevention Through Environmental Design; requirement of enhancements through the Preventative portion of the fund to ensure appropriate steps have been taken to mitigate repeat vandalism or graffiti offences; and others considered necessary by the Application Review Team;

Therefore be it resolved:

1. That City Council reconsider its previous decision regarding Attachment 1 of Report [ED-24-41](#) that allowed for only one application per municipal address; and,
2. That the Graffiti and Vandalism Remediation Fund be modified to allow each municipal address eligibility to be considered for the rebates more than one time; and,
3. That the Director, Business and Economic Development Services, be delegated authority to execute modification of eligibility and associated actions, resulting in the ability for municipal addresses to submit multiple applications subject to review and approval by the Application Review Team.

The vote on Part 1 of the recommendation contained in Item CNCL-25-29 to reconsider Council's decision of April 29, 2024, concerning Item ED-24-41 regarding the Graffiti and Vandalism Remediation Fund. **(Requires 2/3 vote of members present)**

CNCL-25-27 - Timely Advancement of Parks and Infrastructure In and Within the Vicinity of New Developments (All Wards)

Moved by Councillor Marimpietri

Seconded by Councillor Nicholson

Whereas improvements to arterial roads in greenfield areas by the City of Oshawa and the Region of Durham with sidewalks and street lighting frequently occurs only after the completion and occupation of new homes in adjacent plans of subdivision; and,

Whereas the full completion of parks with park facilities is typically scheduled to occur following the completion and occupation of new homes in plans of subdivision, in alignment with municipal priorities, resource availability, and the need to ensure parks are designed and delivered to meet the unique needs of new communities; and,

Whereas the City of Oshawa has a vested interest in ensuring that parks and park facilities reflect community needs, unique local features, and established municipal standards, regardless of whether the development is carried out by the City or by developers; and,

Whereas there is a need to ensure that the quality, design, and timely completion of parks and parks facilities within new subdivisions are maintained through City oversight; and,

Whereas the City's policies for new planning areas such as Kedron and Columbus require developers to finance and build trails in their subdivisions concurrent with their subdivisions, but the completion of trails by the developers frequently occurs only after the completion and occupation of new homes in plans of subdivision;

Therefore be it resolved:

1. That for all residential plans of subdivision not yet registered and all future plans of subdivision, staff be directed to investigate opportunities for the construction of adjacent arterial roads, trails, sidewalks, street lights and fully completed parks prior to, concurrent with or shortly following the timing of the construction of homes in the subdivision, where practical; and,
2. That for all residential plans of subdivision not yet registered and all future plans of subdivision, staff be directed to report to the appropriate Committee and Council on any funding implications of constructing adjacent arterial roads, trails, sidewalks, street lights and fully completed parks as early as possible for plans of subdivision; and,
3. That the annual Mayor's Budget take into consideration plans of subdivision anticipated to be registered in the following year and consider any budget and staff resources required to complete the City's portions of roads, trails, sidewalks, street lights and completed parks in and adjacent to said subdivisions; and,
4. That the Region of Durham be requested to budget and expedite the construction of arterial road improvements concurrent with the registration of adjacent plans of subdivisions.
