The Regional Municipality of Durham Information Report

From: Commissioner of Community Growth and Economic Development
Report: #2025-INFO-57
Date: June 27, 2025

Subject:

2024 Annual Building Activity Review, File: D03-02

Recommendation:

Receive for information.

Report:

1. Purpose

- 1.1 This report summarizes the key findings of the 2024 Annual Building Activity Review (Attachment 1). This annual report includes building permit and construction activity for Durham Region and the Greater Toronto and Hamilton Area (GTHA) for 2024, with comparisons to 2023.

2. Background

- 2.1 The Community Growth and Economic Development Department conducts ongoing monitoring activities to assess the effectiveness of Regional policies in supporting development and growth across Durham. These monitoring activities assist in identifying emerging issues and trends.
- 2.2 Building activity is monitored as an indicator of Regional housing and employment activity, the level of local investment and economic performance. It is also an indicator of the local market for various new building types. This report provides a comprehensive analysis of construction activity from the start of the process (i.e. issuance of building permits), to the construction and occupancy of new residential

units into the market. The report concludes with a comparison of Durham's building activity with the other GTHA municipalities.

- 2.3 The 2024 Annual Building Activity Review report presents key findings in both the residential and non-residential sectors along with trends, forecasts and housing market information. Attachment 2 to this report provides the background data tables and analysis used to produce the annual report.

3. Previous Reports and Decisions

- 3.1 The 2023 Annual Building Activity Review and historical reports can be found on the [Planning for Growth](#) page on the Region's website.

4. Key Highlights

The following summarizes key highlights from the 2024 Annual Building Activity Review:

Residential building activity in Durham

- The total value of all building permits issued in Durham decreased by 12.6%, from \$2.87 billion in 2023 to \$2.51 billion in 2024.
- Residential building permit value decreased by 18.2%, from \$1.65 billion in 2023 to \$1.35 billion in 2024.
- The total number of permits issued for new residential units in Durham decreased significantly by 38.5%, from 5,869 units in 2023 to 3,609 units in 2024.
- Nearly 27.7% of new units (999 units) in 2024 were secondary units or additional dwelling units to an existing home. Overall, there was only a slight decrease in secondary units compared to 2023 (-0.9%).
- A total of 78.8% of new residential units in Durham were in multi-residential forms, such as row houses and apartments.
- There was a 3% increase in the number of housing starts, from 3,864 in 2023 to 3,980 in 2024. At the same time, completions increased by 1.7% from 4,904 to 5,014.

- The average cost of a new single-detached dwelling in Durham increased 8.5%, from \$1,211,552 in 2023 to \$1,314,384 in 2024. It should be noted that the average cost of a new single-detached dwelling in Durham in 2024 was 14.7% below the GTHA average, compared with 11.7% lower in 2023¹.
- The average price of a resale home (all dwelling types) in Durham decreased by 1.5%, from \$936,023 in 2023 to \$922,161 in 2024. The average price of a resale single-detached dwelling also decreased slightly by 0.9% from \$1,036,698 to \$1,027,096.
- Mortgage rates remained elevated, but the Bank of Canada did lower interest rates last year. The average bank rate decreased by 6.8% from 5.02% in 2023 to 4.68% in 2024.

Non-residential building activity in Durham

- The value of non-residential building permits decreased by 5.2%, from \$1.23 billion in 2023 to \$1.17 billion in 2024. Only institutional and governmental sectors experienced increased building permit values in 2024 (wherein commercial, industrial, and agricultural sectors all experienced declines during this period).
- Major non-residential construction projects initiated in 2024 included:
 - a. A new long-term care facility in Pickering (\$152.5 million);
 - b. A major renovation and alteration of OPG offices in Oshawa (\$90 million);
 - c. A new industrial building in Whitby (\$70 million);
 - d. A new long-term care facility in Clarington (\$68 million);
 - e. A new industrial building in Oshawa (\$64.5 million);
 - f. Site servicing and foundation for a new school in Oshawa (\$60 million);
 - g. A new industrial warehouse in Whitby (\$47.2 million);
 - h. A new elementary school with childcare in Clarington. (\$35.4 million);
 - i. A new elementary school with childcare in Pickering (\$26 million);
 - j. Foundation system for an elementary school in Ajax (24.5 million);
 - k. Construction of a new community centre in Pickering (\$24 million); and
 - l. A new industrial warehouse in Whitby (\$22.5 million).

¹ In 2024, the average cost of a new single-detached dwelling was \$1.31 million in Durham and \$1.54 million for the GTHA. This compares with \$1.21 million and \$1.36 million in 2023.

Greater Toronto and Hamilton Area

- Across the Greater Toronto and Hamilton Area, the total value of building permits issued (both residential and non-residential) increased by 5.0% from \$31.2 billion in 2023 to \$32.7 billion in 2024.
- In 2024, there were 56,507 building permits issued for new residential units in the GTHA, compared to 62,632 units in 2023 (-9.8%). Only Halton and Toronto experienced an increase in the number of permits issued for new residential units, while Peel, York, Hamilton, and Durham experienced decreases.
- The total value of residential building permits in the GTHA increased by 5.4%, from \$18.8 billion in 2023 to \$19.8 billion in 2024.
- The value of non-residential building permits issued in the GTHA increased by 4.5%, from \$12.4 billion in 2023 to \$12.9 billion in 2024.

5. Relationship to Strategic Plan

5.1 This report aligns with the following Strategic Directions and Pathways in Durham Region's 2025-2035 Strategic Plan:

a. Connected and Vibrant Communities

- C1. Align Regional infrastructure and asset management with projected growth, climate impacts, and community needs.
- C2. Enable a full range of housing options, including housing that is affordable and close to transit.
- C5. Improve digital connectivity and multi-channel access to information, resources, and service navigation.

b. Resilient Local Economies

- R1. Attract and retain quality employers that strengthen key economic sectors, including energy and technology.
- R2. Support the growth of new business startups and small to medium local businesses.

c. Strong Relationships

- S3. Collaborate across local area municipalities, with agencies, non-profits, and community partners to deliver co-ordinated and efficient services.

6. Conclusion

- 6.1 In 2024, Durham's residential sector experienced a decrease in the overall value of building permits² (-18.2%) and in the number of permits for new units (-38.5%). Most housing types experienced a significant decline last year, with the exception of secondary units. The resilience of secondary units corresponds with ongoing challenges in housing affordability, and this trend is expected to continue. Overall, historically high house prices combined with high mortgage rates impact demand for new housing in Durham.
- 6.2 Non-residential building permit value also decreased (-5.2%) compared to 2024. Commercial (-31.7%), industrial (-44.3%), and agricultural (-13.2%) sectors all experienced declines, while there was an increase for both institutional (+32.6%) and governmental sectors (+577%).
- 6.3 The Canada Mortgage and Housing Corporation (CMHC), in their Housing Market Outlook for Canada and Metropolitan Areas noted that Canada's economic future faces significant uncertainty due to potential changes in U.S. trade policies and lower immigration levels.
- 6.4 According to CMHC, Ontario's housing sales are expected to remain below the 10-year average through to the end of 2027, due to ongoing affordability challenges and the more notable impact of new immigration targets. Home price increases are expected to be modest over the forecast period³, with gradual improvements provided that mortgage rates continue to decline and there is more economic certainty later this year.
- 6.5 Regional staff continue to monitor the impact of the current economic context, monetary policy, and inflationary pressures on building activity over the course of 2025.

² The value of residential building permits includes new units, additions, renovations, and miscellaneous alterations.

³ The forecast period for the CMHC Housing Market Outlook is up until the end of 2027.

6.6 A copy of this report will be forwarded to Durham Region's area municipalities for information.

Attachment 1

June 2025

The background of the cover features a photograph of a construction site. A large blue tower crane is positioned in the center, its arm extending across the upper half of the image. Below the crane, two high-rise buildings are visible. The building on the left is a completed or nearly-completed structure with many windows and balconies. The building on the right is under construction, showing its steel framework and some scaffolding. The sky is a clear, pale blue. Overlaid on the image are several large, semi-transparent geometric shapes in shades of blue and teal, creating a modern, architectural feel.

2024 Annual Building Activity Review

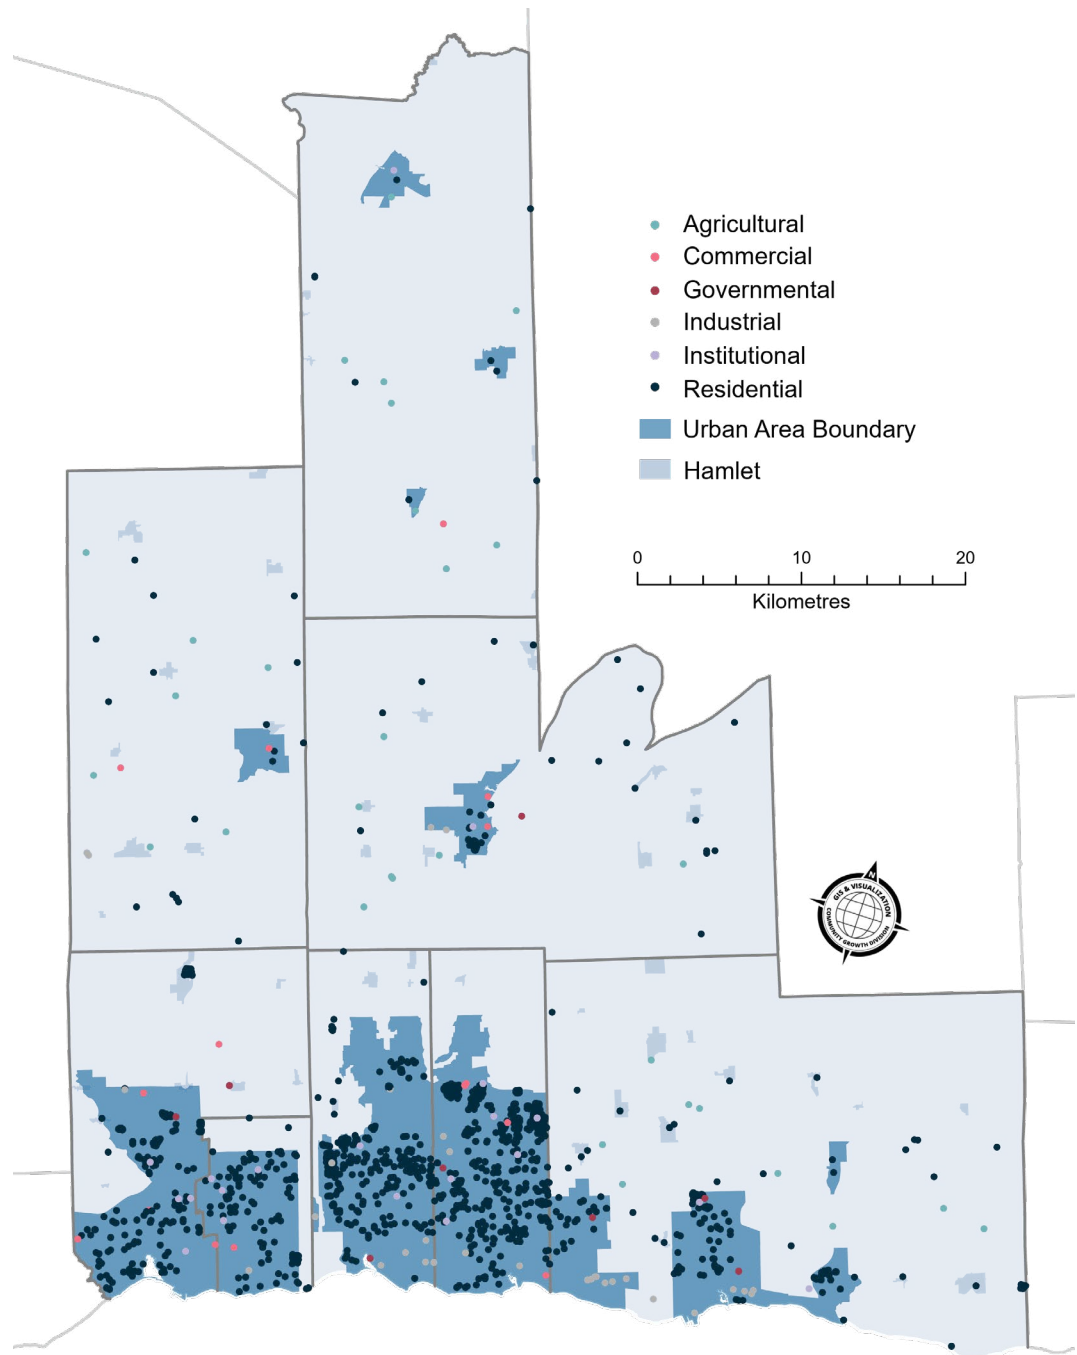

In 2024, Durham's residential sector experienced a decrease both in the number of permits for new residential units (-38.5%) and the value (-18.2%) of permits overall, compared to 2023.

The value of non-residential building permits decreased in Durham (-5.2%) compared to 2023.

Regional staff continue to monitor the impact of the current economic context, monetary policy, and inflationary pressures on building activity over the course of 2025.

The Community Growth and Economic Development Department conducts ongoing monitoring activities to assess the effectiveness of the Regional policies in supporting development and growth across Durham.

Building activity is also an indicator of regional housing and employment activity, the level of local investment, and economic performance.
